

Hazmat Placard Protectors

Why do you need a hazmat placard protector?

Keeps the placard **in place** without sticky back:

- **Saves hassle** of dealing with adhesive back.
- **No worries about lost placards** resulting in tickets, lost money and time.

Protects the placard from:

- Rain and weather – they **stay in readable condition**.
- Wind – **keeps wind from pulling them from their holder**.

Reusable many, many times – with minimal care, **our protectors do their job year after year**.

Number of Protectors	Our Price
1-25	\$5.00/each
26-50	\$4.00/each
51-100	\$3.50/each
101-200	\$3.00/each
Volume discounts available -- please inquire as to pricing.	

- Thinner, sleeker than the competition ... just as durable
- Slides in with ease but stays in place
- Made of strong, tough, and heat-resistant polycarbonate
- High tensile strength – resists damage due to weather and flying debris
- Economical price
- Fits standard 10 1/2" x 10 1/2" placard holders
- Finger hole for easy removal

Polycarbonate

vs

Acrylic

Stronger than glass (**30** times)
 Impact resistant
 Flexible

Stronger than glass (**10** times)
 More likely to chip
 Not flexible
